Pat Quinn, *Governor*

**DISCLAIMER:**

The address coding guides contain addresses located in federally recognized Qualified Census Tracts (hereafter referred to as “Targeted Areas”). These guides are to be used as a reference source for the purpose of determining whether a specific address is located within a Targeted Area. The information in these guides has been extracted from data compiled by the U.S. Census Bureau from the 2000 Census. The Authority and the State of Illinois do not represent, nor do they make any assurances, that the U. S. Census Bureau data is accurate. The Authority and the State of Illinois are not responsible for any errors or omissions in these guides that have resulted from errors in the U.S. Census Bureau data.

The following instructions will assist you in determining whether the property in question qualifies as a "**Targeted Area Residence**." These instructions are repeated at the beginning of each PDF file (accessible below).

The information in the PDF files is organized by **county**...then **city** within the county...by ascending **zip code**...by alphabetical **street name**...by **street number** range...by **even** number **or odd** number.

**Note: Some eligible addresses have not been assigned a city by the U. S. Census Bureau. They are listed under the city labeled "unknown" (see special instructions below).**

Sounds confusing, but it's not.

### **STEP 1**

Use the pull-down list below to select the county that your property is located in. The file will open in Adobe Acrobat Reader®.

**NOTE:** Properties located within the city of Chicago can be found under the listing "Chicago." The listing for "Cook County" contains all targeted cities within that county other than Chicago.

### **STEP 2**

With the PDF file open, scroll to the **city** in which the residence is located (short-cut: "Ctrl+F" or click on the "Find" icon  and type the name of the city into the field labeled "Find What:").

### **STEP 3**

Scroll to the **zip code** in which the residence is located (short-cut: "Ctrl+F" or click on the "Find" icon and type the zip code into the field labeled "Find What:").

### **STEP 4**

Locate the **street name**

### **STEP 5**

Locate the **street number range** (i.e., the "**From**" and "**To**" range)

### **STEP 6**

Check the **code**. "**O**" signifies the **odd** numbers, "**E**" signifies the **even** numbers. (e.g., a street number range "From 100 To 160" with a code designation of "E" would indicate that all even house numbers which fall between, and include 100 and 160 are targeted residences.)

**If the city or zip code or property address is not listed, the property is NOT a Targeted Area Residence.**

**City or zip code labeled "Unknown":**

Within some of the counties there are addresses for which the Census Bureau did not provide city names or zip codes. **For those missing the city name** it is necessary to **use the zip code** associated with the address to determine the general location of the address. **For those missing the zip code** they will be the **first listings under the city.** **If the address or city you are looking for is not found, check the county listing for a city named "Unknown."**
