

**ILLINOIS HOUSING
DEVELOPMENT AUTHORITY**

**ComEd® Energy Efficiency Program
Affordable Housing New Construction Webinar**

Development Stakeholders:

On Wednesday, March 28, the ComEd Energy Efficiency Program will host a free webinar on the affordable housing new construction ("AHNC") offering to inform affordable housing developers, architects, owners, etc. what is new since the recent transition from the Illinois Department of Commerce and Economic Opportunity. This live, interactive webinar will feature ComEd energy efficiency experts who will explain savings opportunities through the AHNC offering and the process for participation, as well as eligibility and technical requirements.

The AHNC offering provides technical guidance and incentives for developers of single-family and multi-family new construction and major renovation projects to reduce energy use for income eligible households. IHDA strongly encourages you to participate in this webinar to learn how to leverage no-cost energy efficiency expertise and receive incentives!
