# IHDA Mortgage Credit Certificate (MCC)

## Purpose
Homebuyers who qualify for the program receive a MCC from the Illinois Housing Development Authority (IHDA), as authorized by the IRS, which can be used to reduce their household’s tax burden every year for the life of their mortgage loan. IHDA does not and cannot offer tax advice. Please speak to your tax advisor and/or Lender for specific information.

## Date
Reservations open for closings on or after 9/1/2018 – in conjunction with an IHDA Access Program. Available until IHDA has closed the program for reservations in the Internet Loan Reservation Servicing System (ILRSS).

## Usage
With a MCC, a percentage of what the homeowner pays in mortgage interest (25%) becomes a tax credit that can be deducted dollar-for-dollar from his/her yearly income tax liability (up to $2,000). The remaining 75% of the mortgage interest continues to qualify as an itemized tax deduction, as long as the homeowner has sufficient tax liability.

## Fees
- $350.00 - Payable to Illinois Housing Development Authority
- $150.00 - Optional fee that may be charged by the originating lender.

## Recapture Tax
Recipients of the MCC may be subject to a federal recapture tax if the property is sold during the first 9 years.

## Reissuance
If a borrower currently has an MCC on their primary residence, and the borrower refinances their 1st mortgage loan, they may request reissuance of their MCC as long as the home remains their primary residence.
