

IT Business Systems Analyst

Illinois Housing Development Authority (IHDA), one of the Nation's preeminent Housing Finance Agencies and one of the State's ten largest financial institutions, is currently seeking an IT Business Systems Analyst to build upon their 50+-year leadership in housing finance.

The business systems analyst has a general knowledge of computer applications from both the business and technical perspectives. The business systems analyst approaches the work with a business orientation and acts as a liaison between people using the systems and the technical environment of programmers and systems. The business systems analyst assists in developing new business procedures, modifying existing procedures to fit new business models, and identifying and coordinating solutions to application errors.

Education and Experience requirements:

Bachelor's degree in Computer Science, Information Technology preferred or other related field. 2-4 years experience as a Business Systems Analyst. Strong prioritization, organizational and communication (oral and written) skills. Experience authoring business requirements and technical specification documents. Proficiency with Microsoft Word and Excel. Ability to work independently and meet time-sensitive project deadlines. Working knowledge of loan origination and servicing systems or financial accounting systems is a plus.

Excellent benefits package, including 401 (k); immediate vesting.

To apply, submit resume to:
