

BUDGETING FOR RESULTS

Public Hearing

Budgeting for Results and the Budgeting for Results (BFR) Commission is established under state statute, PA 96-958. Budgeting for Results works towards performance-based budgeting in response to prioritized state program outcomes and goals. The Commission provides advice on best practices regarding performance budgeting and program performance evaluation. Each year the Commission holds two public hearings to provide a public forum to learn about the BFR Initiative and to enable the public to engage with the Commissioners on BFR-related matters. Your input and engagement is welcome at an upcoming BFR Commission public hearing.

Panelists will include: Ronojoy Sen with the Pew-MacArthur Foundation - Results First Initiative (Chicago) & Kathy Saltmarsh with the Sentencing Policy Advisory Council (Springfield)
