

ACCOUNTABILITY FOR THE INVESTMENT OF PUBLIC FUNDS ACT

The Illinois Housing Development Authority (the “Authority”) is a body politic and corporate of the State of Illinois created by the Illinois Housing Development Act, as amended (the “Act”), for the purposes of assisting in the financing of decent, safe and sanitary housing for persons and families of low and moderate income in the State and assisting in the financing of residential mortgages in the State. To accomplish its purposes, the Authority is authorized by the Act to make mortgage or other loans to nonprofit corporations and limited-profit entities for the acquisition, construction or rehabilitation of dwelling accommodations and to acquire, and to contract and enter into advance commitments to acquire, residential mortgage loans from lending institutions. The Act also authorizes the Authority to issue its bonds and notes to fulfill corporate purposes, including the financing of mortgage and construction loans, the acquisition of residential mortgage loans and the making of loans for housing related commercial facilities. The Authority has issued various bonds and notes to finance mortgage loans and construction loans, to purchase residential mortgage loans from lending institutions and to make loans to private lending institutions for making new residential mortgage loans.

The bonds and notes outstanding of the Authority consist of both general and special limited obligations of the Authority. The full faith and credit of the Authority are pledged for payment of general obligation bonds and notes. The Authority has the power under the Act to have up to \$7.2 billion of general and specific limited obligation bonds and notes outstanding, excluding those issued to refund outstanding bonds and notes. At April 30, 2023, amounts outstanding against this limitation were approximately \$4,210,214,757.
